

10 municipalities impacted : GRASSE, TANNERON, AURIBEAU/SIAGNE, PEYMEINADE, TIGNET, MOUANS-SARTOUX, LA ROQUETTE/SIAGNE, PEGOMAS, SPERACEDES, ADRETS DE L'ESTEREL.

NO, NO and NO! to the new flight path above Pays de Grasse!

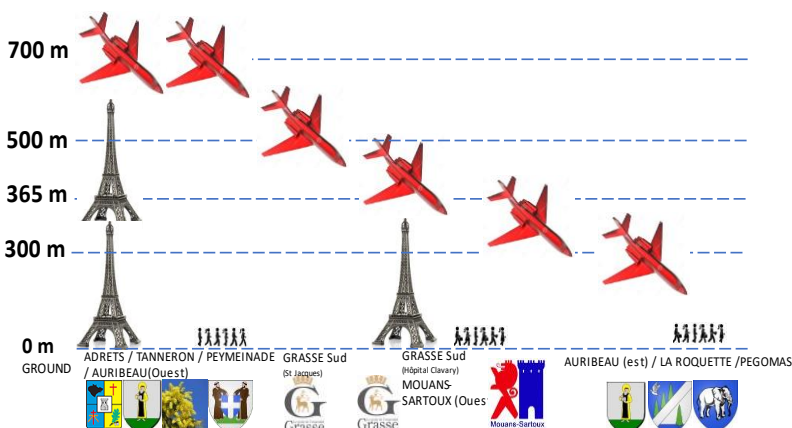

NO, NO and NO! to the new NORTH-WEST approach in to Cannes-Mandelieu airport!

Population impacted: additional 92,000 inhabitants in over 10 more communes.

THE NEW FLIGHT PATH. NO !

REAL ALTITUDE OF FLIGHT / GROUND (in meters) !
Frequency : every 15 mins in high season or during cannes congres

YES! to support the 6 neighbouring communes (Mouans-Sartoux, La Roquette/Siagne, Mougins, Le Cannet, Mandelieu, Cannes) currently seeking alternative solutions to reduce aircraft noise (e.g. significant reduction of air traffic during high season)

BUT, a firm NO to the proposed new flight path!

Let us unite to stop this - collectively 15 communes involved with over 250,000 inhabitants affected by jets and small aircraft flying into Cannes-Mandelieu airport. We are determined to preserve the tranquility of our environment !

**We have very little time!
We need you !**
